DATE OF SESSION: 16 NOV 88              DATE OF REPORT: 16 NOV 88

METHODOLOGY: CRV                         VIEWER IDENTIFIER: 095  
-----

1. (S/NF/SK) MISSION: Describe the general mission of the site and the specific activities/personnel/equipment of each target area.
2. (S/NF/SK) VIEWER TASKING: The monitor informed the viewer that this session was a continuation of previous work and reviewed the data which 095 had already produced. The viewer was then instructed to begin the session in Stage 4 with the cue [Area A - inside structure(s)]. After a cursory look at Area A, 095 was directed to shift attention to Areas B and C.
3. (S/NF/SK) COMMENTS: 095 was caught by surprise with regard to the monitor-initiated change in operating procedure (i.e., many, daily short sessions vs. several, long ones at spaced-out intervals). Despite this minor 'PI', the session seemed to go quite well.
